[Kaiser Friedrich Museum,
Munzkabinett, Berlin]

1924-1926

Sept. 2, 1924.

Dear Dr. Gaebler:-

I beg to acknowledge receipt of the casts which you so kindly sent me at my request. They reached us in good condition, with one or two exceptions - unfortunately the obverse of the little gold piece of Thasos had been lost out of the package, as had also the obverse of Maronea 38 wt. 3.67. Might I ask that at your convenience, you send these two, along with the ones of Mende about which I shall speak next.

If it would not be too much trouble, I should greatly like to have casts of Zeit. f. Num., 1923, Pl. II, No. ? and Pl. III, Nos. 33 and 34. I am sorry not to have asked to have these included with the former lot, but trust my request will not inconvenience you.

The casts of Aeginetan coins are most interesting. Several of these are similar to a piece found in a Cretan Hoard which we are just publishing, and of which I shall send you a copy as soon as it is ready. Again thanking you, I am,

Very sincerely yours,

Secretary
